

Mobilizer[®] Norbert

Therapy chair for patient mobilisation
Ergonomic, safe and comfortable

- safe mobilisation of patients of weights up to 230 kg
- continuously adjustable between lying and sitting positions; optionally height-adjustable mechanically or electrically independent of positions
- armrests can be swivelled to the back for barrier-free lateral transfer
- patented length adjustment reduces shearing forces during backrest adjustment - decubitus prophylaxis
- can be adapted to patient size using height-adjustable and swivelling footrest

Product features

Patented seating concept with length adjustment and automatic seat tilt

The patient remains in a stable position during any adjustment of the backrest, without any need to reposition during the process. Shearing forces in the patient's back area are avoided and the effort of the care staff is reduced through the minimization of repositioning.

An optional height adjustment, independent of the position and according to the chosen equipment option mechanically or electrically, ensures ergonomic work processes. The patient experiences the positive psychological benefit of being "at eye level" with their surroundings.

The viscoelastic, pressure releasing and removable upholstery allows patients to sit for long periods without the risk of complication. You can choose of a wide range of colors.

Swivelling armrests allow barrier-free transfer to and from the chair, even from a tilted lying position. This is especially helpful for patients with limited respiratory capacity.

We have appropriate supplementary equipment for many areas of application and would be happy to assist you.

Equipment options - examples

lying position

adjustable footrest

table with u-pad (optional)

Technical data

optional height adjustment	58 - 80 cm*
total horizontal length	190 cm
seat width	57 / 65 cm**
total width	74 cm
electronically conductive wheels	Ø 150 mm
net weight	ca. 90 kg
permissible patient weight capacity	230 kg

* option height adjustment [Art.-Nr. 5090000]

** enlarged option [Art.-Nr. 6040117]
